OUR JOURNEY FROM
BANGLADESH

SINCE

1995

Global Logistics Solution provider

www.atlaslogistics-bd.com

Mr. Masahiko Kamata
Group Chairman- Japan

Greetings all of you guys from Atlas Logistics (Pvt.) Limited An SBS Group -Japan

Ever since the founding for our group of company, we have striven to improve our logistics services, maintaining our mission of consistently responding to the various needs of our customers. Consequently, our range of services has expanded from same-day delivery services (taking consignment of a package in the morning and delivering it that same afternoon) and mailing services (delivering bulletins and direct mail of a remarkably low cost) to 3PL (third-party logistics) services (providing logistics optimization and cost reeducation), human resources services (providing the number of people required, but only when necessary), and marketing services (comprehensively supporting corporate management from planning to execution). We have also formed a group that enables us to respond to our customer's outsourcing needs with one-stop service. Refusing to be content with the present situation, we continue to make new advances lowered the establishment of an unprecedented type of corporate group ? a "Comprehensive Outsourcing Corporate Group." We appreciate having you as our customer and ask for your continuing support and guidance in the years to come.

MESSAGE

We are Global Logistics Solution Provider...

I am very happy to announce about our recent acquisition by Japan-based SBS Group. With this development both the companies are confident that there would be substantial synergy created by the acquisition for a faster and more efficient growth of the combined entity. The financial strength, technical knowhow, rich knowledge in ground transportation, Japanese management, which has been proved as one of the best management in the world, expert knowledge in 3PL, will enhance our strength to give value added services to the logistics industry in Bangladesh.

Our focus is always on cost-effective means to move customers' parcels and products along the supply chain. We meet their unique needs by choosing the right mode of transportation for their shipments. We are ever ready to walk that extra mile by custom-designing logistics solutions in certain cases where complex transportation is involved.

We have built a strong reputation as a trusted company over the years it is primarily because of our excellent management team consisting of trained professionals. They consistently devise and evolve strategies to streamline operations and increase competitiveness of our company. The routinely update themselves on the trends in logistics and transportation management systems.
